## The Heart

Write the name of each part of the heart next to the number at the bottom to match the numbers on the heart.

- 1.
- 2.
- 3.
- 4.
- 5.

- 6.
- 7.
- 8.
- 9.

Draw arrows to show the direction of blood flow. Red arrows for blood with high oxygen and low carbon dioxide and blue for the opposite.

Label what the parts below represent and draw in oxygen and carbon dioxide molecules to show where they are high and where they are low.
