

**Hours and Minutes**

HML1S1

Example :

6 hours = \_\_\_\_\_ minutes

**1 hour = 60 minutes**

6 hours = 6 x 60 minutes

**= 360 minutes**

| Convert the following hours to minutes | Work space |
|--|------------|
| 1) 5 hours = <u>300</u> minutes        |            |
| 2) 7 hours = <u>420</u> minutes        |            |
| 3) 3 hours = <u>180</u> minutes        |            |
| 4) 9 hours = <u>540</u> minutes        |            |
| 5) 14 hours = <u>840</u> minutes       |            |
| 6) 12 hours = <u>720</u> minutes       |            |
| 7) 8 hours = <u>480</u> minutes        |            |
| 8) 15 hours = <u>900</u> minutes       |            |
| 9) 4 hours = <u>240</u> minutes        |            |
| 10) 11 hours = <u>660</u> minutes      |            |
